# About Our Company

Innovet X is a specialized supplier of high-quality seamless pipes and installation components, serving a wide range of industrial and infrastructure projects. With over six years of solid experience in the local market, we have built a strong reputation based on reliability, technical expertise, and product excellence.

We collaborate with trusted manufacturers from around the world, supplying seamless pipes from Russia, Ukraine, Spain, Romania, and China, as well as installation pieces sourced from Italy, China, Taiwan, and Egypt. Supported by a team of skilled engineers and a dedicated technical support unit, we ensure efficient delivery, precise solutions, and consistent quality across all our products.

# OUR MISSION

*To provide high-quality seamless pipes and installation pieces that meet international standards.*

*To support our clients with professional technical expertise and reliable supply solutions.*

*To build long-term partnerships based on trust, efficiency, and consistent performance.*

*To continuously enhance our product range and services to meet the evolving needs of the industrial sector.*

# OUR VISION

*To become a leading and trusted supplier of seamless pipes and industrial installation solutions in the regional market, recognized for quality, reliability, and technical excellence.*

# Our Products

- PIPES
- VALVES & ACCESSORIES
- FITTINGS
- FIRE HOSE CABINET & EXTINGUISHER
- SPRINKLERS
- HUNGERS & SUPPORT
- FLANGES

# PIPES

*Interpipe Ukrainian pipes, a brand known for its exceptional quality and reliability. Our products are designed to deliver superior durability, safety, and performance, meeting the highest industry standards.*

*Chelpipe Russian pipes, recognized for their outstanding strength and durability. Our products guarantee high performance, safety, and compliance with international quality standards.*

*DEZHENG STEEL DZ Chinese pipes, known for their balance between affordability and quality. These pipes offer reliable performance and meet industry standards for various applications.*

# VALVES AND ACCESSORIES

YOUR DREAMS ARE OUR MISSION

*We offer high-quality ball valves from renowned brands such as Mobiak, Giacomini, and Itap, ensuring reliability and optimal performance for fire-fighting systems.*  
MOBIAK GIACOMINI Itap

*Our test and drain valves from top brands like Rapidrop and Giacomini are designed for efficient system testing and drainage, ensuring reliability and compliance in fire protection systems.* Rapidrop GIACOMINI ARMAS

*We offer high-precision pressure gauges from trusted brands like Rapidrop and Winter, ensuring accurate pressure monitoring for optimal fire protection system performance.* Rapidrop WINTERS

# FITTINGS

YOUR DREAMS ARE OUR MISSION

*Our threaded fittings are designed for superior strength and leak-proof reliability, meeting the highest industry standards. Certified by UL and FM, they provide trusted performance for fire protection systems, ensuring safety and compliance with global quality standards.*

*WELDED FITTING Designed for superior strength and secure, permanent connections, our welded fittings ensure exceptional durability and performance in demanding fire protection systems. Perfect for high-pressure applications, they deliver reliable, long-lasting solutions for your fire safety needs .*

*GROOVED FITTING British-made quality you can trust. Rapidrop grooved fittings offer fast, secure, and leak-free connections—perfectly suited for Egypt's demanding fire protection projects. Trusted by engineers, preferred by contractors.*

# **FIRE HOSE CABINET & EXTINGUISHER**

*Our Fire Hose Cabinets are designed for rapid response and durability in the harshest environments. Made from high-quality steel or stainless steel, these cabinets ensure long-lasting performance while keeping your fire hose reel protected and ready to use in emergencies.*

*we don't just sell fire extinguishers — we deliver peace of mind. Our premium fire protection solutions are crafted with precision, engineered for reliability, and trusted in the moments that matter most. From commercial towers to industrial sites and residential spaces, our extinguishers stand as a first line of defense against the unexpected. We combine cutting-edge technology with strict quality standards to ensure unmatched safety and performance.*

# SPRINKLER

YOUR DREAMS ARE OUR MISSION

*our fire sprinkler systems are designed to respond instantly and act decisively. We proudly offer some of the world's leading sprinkler brands, known for their reliability, precision, and superior performance.*

*With advanced engineering and intelligent design, our systems deliver automatic fire suppression that protects lives and property around the clock. Whether installed in commercial buildings, warehouses, or residential complexes, our sprinklers meet international safety standards and integrate seamlessly into any environment. At Triple A, we don't just install systems — we deliver world-class protection, peace of mind, and unwavering commitment to safety.*

# HUNGERS AND SUPPORT

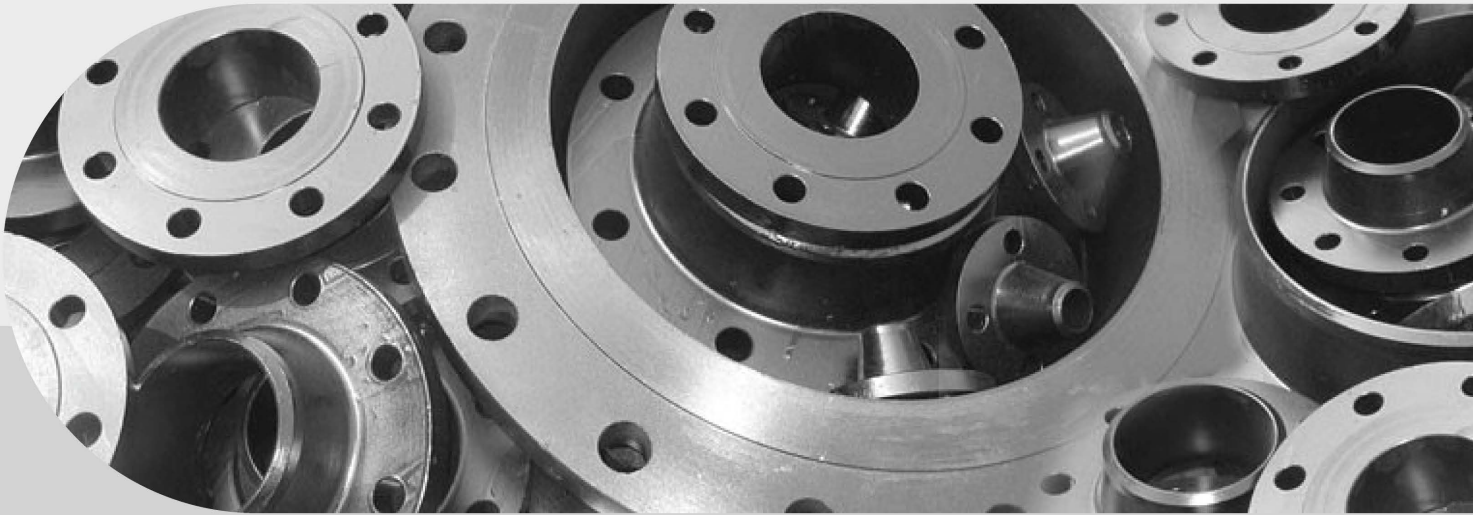

*HANGER: We offers durable hangers designed to securely support pipes and equipment in various environments. Our hangers ensure easy installation and long-term performance.*

*SUPPORT: Our high-quality supports provide reliable stability for piping systems and machinery, ensuring optimal safety. With advanced design and materials, our supports deliver unmatched durability.*

# FLANGES

YOUR DREAMS ARE OUR MISSION

*Our flanges offer the ultimate solution for ensuring secure, leak-proof connections in piping systems across various industries. Whether for industrial, commercial, or residential use, our high-quality flanges provide the strength and reliability needed to keep your systems running smoothly and safely*

# **Beams** **(UPN, HEA, HEB, IPN, IPE)**

*We offer a comprehensive selection of beams, including UPN, HEA, HEB, IPN, and IPE profiles. These structural elements are crucial for supporting loads in construction projects. Their robust design ensures maximum strength and stability, making them ideal for a variety of applications including residential, commercial, and industrial buildings. Our beams meet stringent quality standards, ensuring reliability throughout their life-cycle.*

# **Steel Sheets**

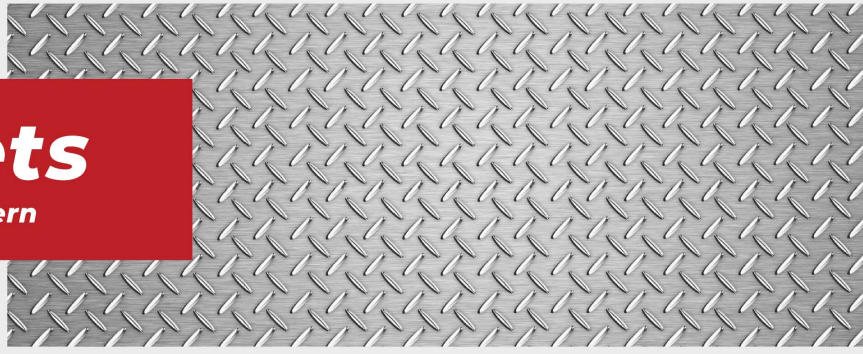

**Hot Rolled (HRC), Cold Rolled (CRC)**  
**Pickled & Oiled (P&O)**

*Our steel sheet collection encompasses hot-rolled (HRC) and cold-rolled (CRC) varieties, along with pickled and oiled sheets. These versatile products cater to diverse industries, from manufacturing to automotive. Hot-rolled sheets offer excellent malleability, while cold-rolled sheets provide enhanced surface quality. The pickled and oiled options prevent rust formation, making them suitable for both structural and aesthetic purposes.*

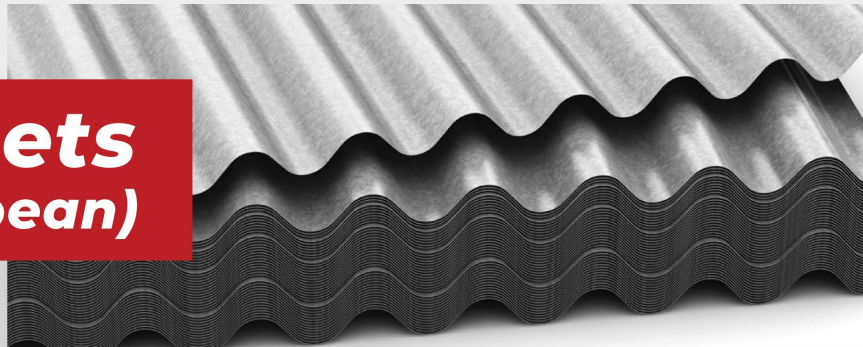

# **Patterned Sheets**

**Chequered Plate (Diamond) & Tear Drop Pattern**

*We specialize in patterned sheets that include chequered plates and tear drop patterns. These sheets are not only functional but also add an aesthetic value to various surfaces. Ideal for anti-slip flooring in industrial and commercial spaces, they enhance safety while elevating the overall design of the area. Their durability makes them suitable for high-traffic environments.*

# **Galvanized Sheets** **(Kandil, Chinese, European)**

*Our range of galvanized sheets includes options like Kandil, Chinese, and European standards. Galvanization provides a protective zinc coating that significantly enhances corrosion resistance. These sheets are perfect for applications that require durability and longevity, such as roofing, siding, and fencing. By choosing our galvanized sheets, you ensure a lasting performance even in harsh environmental conditions.*

## **Corrugated And Pre-painted (Colored) Sheets**

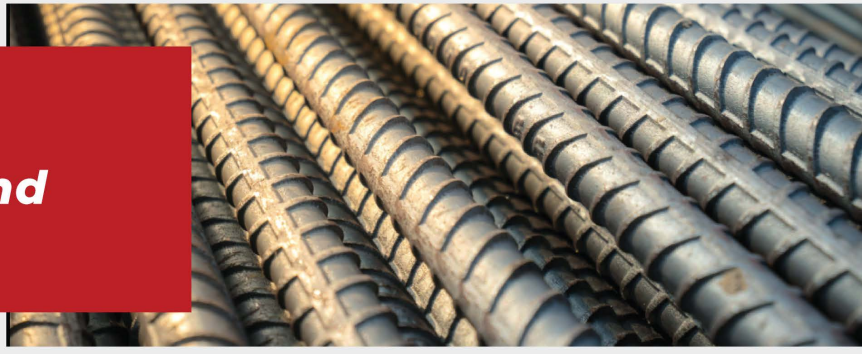

*Offering a variety of pre-painted colored corrugated sheets, our products combine durability and visual appeal. These sheets are lightweight yet strong, making them ideal for roofing solutions where aesthetic versatility is desired. Their unique design allows for effective water drainage, reducing maintenance needs while providing excellent protection against the elements.*

## **Hollow Sections (Box Profiles) & Pipes**

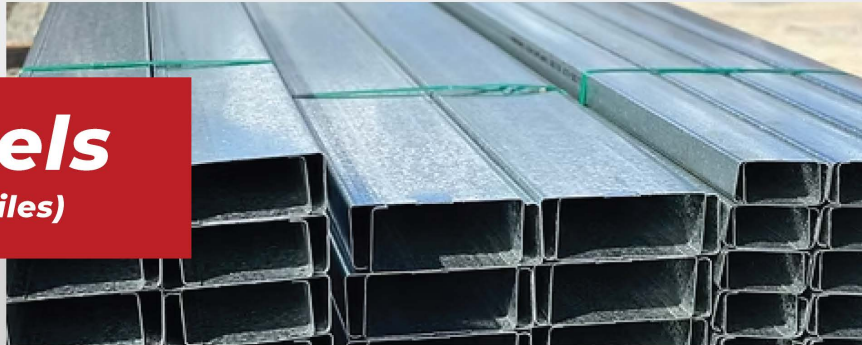

*Our hollow sections include both box profiles and pipes, designed specifically for structural integrity and efficiency in construction. These sections are lightweight yet incredibly strong, making them suitable for a wide range of applications, including construction, automotive, and machinery. Their design facilitates easy handling and installation, contributing to faster project timelines.*

## **Steel Bars:** **Flat Bar, Square Bar, Round Bar, Transmission Shafts**

*We offer a diverse range of steel bars, including flat, square, round bars, and transmission shafts. Each type serves a unique purpose, from structural supports to components in machinery. Known for their strength and versatility, these bars are essential in various construction and engineering projects, ensuring that they withstand heavy loads and adverse conditions.*

## **Purlins & Channels** **(Segal/C-Channel) & Purlins (Z, C, U profiles)**

*Our selection of purlins and channels includes Segal profiles, C-channels, and various Z, C, and U-shaped profiles. These components play a vital role in creating sturdy frameworks for buildings and industrial structures. Designed for easy installation and adaptability, they provide the necessary support for roofs and walls, enhancing overall structural integrity.*

# **Sandwich Panels**

## **(Roofing, Walling)**

*Our sandwich panels are designed for modern roofing and walling applications. They consist of two outer layers of metal with an insulating core, providing excellent thermal efficiency. Ideal for warehouses, industrial buildings, and commercial spaces, these panels are lightweight yet offer great strength and insulation properties, ensuring energy efficiency.*

# **UPVC Sheets**

**(Alternative to metal sheets & Roofing Tiles)**

*Our UPVC sheets provide a lightweight and durable alternative to traditional metal sheets. Suitable for roofing tiles and various construction applications, these sheets resist corrosion and weathering. They offer excellent insulation characteristics while maintaining aesthetic flexibility, making them an ideal choice for a wide range of building projects.*

YOUR DREAMS ARE OUR MISSION

**THANK  
YOU**
